

<p>Helen Keller</p> <p>iww.org</p>		<p>“Too much of blindness is traceable to wrong industrial conditions, often caused by the selfishness and greed of employers. I am committed to revolution, no matter the cost. Jail, poverty, calumny- they matter not.” We must “organize all workers on an economic basis. The true idea of the IWW is not only to better conditions, to get them for all people, but to get them at once. I don't give a damn about semi-radicals! I am an IWW because the Socialist party is too slow. Nothing can be gained by political action.” –Helen Keller</p>
