

MEET THE AUTHOR AND DISCUSS:

“An effective and provocative historical approach to a complex problem: How do working Americans and their unions reverse the decline in living standards and employment security in the global economy?”

Larry Cohen, International President of the Communication Workers of America

“Joe Burns' new book explains why this traditional tool of worker struggle is still relevant and how it can be used effectively in the 21st century. *Reviving The Strike* deserves a wide labor audience”

Steve Early, Labor Journalist and Author of *The Civil Wars in US Labor*.

“Joe Burns goes for the jugular! By focusing on the strike, he raises the main question for a revived labor movement. Strikes may not solve all of the labor movement's problems, but without the strike weapon the hope of labor power is a delusion.”

Frances Fox Piven, Distinguished Professor of Sociology and Political Science at the CUNY Graduate Center.

“Joe Burns shows us how badly employers needed to outlaw solidarity—and the drastic consequences for workers. This book will prompt some major rethinking.”

Jane Slaughter, founder of Labor Notes Magazine and editor of *Troublemakers Handbook II*.
